GAME SOUND ENGINEER

SUMMARY

Gamification is being increasingly used in education, simulation, community building, training, etc. creating learning and development experiences that are interactive, engaging, and immersive. The possibilities for using game development (creating video games) for Christian ministry are numerous. By employing thoughtful design, engaging narratives, and relevant themes, games can become powerful tools for enriching faith, discipleship, fostering community, and sharing the message of Christ in new and exciting ways. APC is assembling a talented team of game development professionals capable of creating truly great gaming experiences to use this tool to further the purposes of God on the earth.

APC is looking for a talented and passionate Game Sound Engineer to join our game development team and contribute to creating cutting-edge games and immersive gaming experiences. APC is looking for a talented and passionate Game Sound Engineer to join our game development team and contribute to the audio elements of our exciting projects. The game development team will build compelling narratives and immersive worlds using Nuclino (or similar documentation, worldbuilding, and planning tools), work with Godot (or other game engine), Blender/Maya (or other modeling & animation tools), FMOD (or other sound effects & music software), and Daz Studio (or other character creation platforms).

VISION

To use games and gamification as a tool to enrich faith, disciple, build Christian community, and to reach people with the message of Christ in new and exciting ways.

Please review the APC Organization Chart available on OUR TEAM page (apcwo.org/about-us/our-team).

ROLE DESCRIPTION

The following provides an overview of the responsibilities that we presently envision for this role. These will be continuously updated as new initiatives are explored.

- Collaborate with Game Designers and Developers: Work closely with the game development team to understand the vision and requirements for audio elements in games. Collaborate with designers and developers to integrate sound effects, music, and other audio assets seamlessly into the game environment.
 - Utilize Game Engines and Frameworks: Proficient in using game engines such as Unity, Godot, or other relevant platforms to implement and optimize audio systems.
-

-
- **Create Sound Effects and Music:** Design and produce high-quality sound effects using tools like FMOD, Adobe Audition, or other industry-standard software. Compose and implement music that enhances the overall gaming experience.
 - **Character Creation and Animation:** Collaborate with animators and character artists in modeling and animation tools such as Blender, Maya, or other applicable software. Ensure that character audio elements align with the visual aspects and contribute to the character's personality.
 - **Documentation and Worldbuilding:** Document audio design processes, decisions, and technical details for future reference.
 - **Contribute to worldbuilding** by creating audio elements that enhance the narrative and atmosphere of the game world.
 - **Planning and Organization:** Use planning tools like Nuclino or other project management software to organize and schedule audio-related tasks. Participate in planning sessions to contribute ideas and strategies for achieving the desired audio experience.
 - **Cross-functional Collaboration:** Work closely with game designers, artists, programmers, and other team members to ensure a cohesive and compelling player experience.
 - **Virtual reality (VR) gaming and augmented reality (AR) gaming** may be considered in the future.

QUALIFICATIONS/EXPERIENCE REQUIREMENTS

- Must have a definite call of God to this kind of ministry role, with a strong passion for God's Word and depth in the Spirit.
- Must be passionate about local church ministry, discipling, equipping and empowering people for Kingdom purposes.
- Bachelor's degree in Audio Engineering, Sound Design, or a related field or equivalent work experience.
- Proven experience as a Sound Engineer in the gaming industry.
- Strong skills in sound design, music composition, and audio implementation.
- Familiarity with Unity, Godot, or other relevant game engines.
- Familiarity with modeling and animation tools (Blender, Maya, etc.).
- Familiarity with character creation tools (Daz Studio, etc.).
- Proven ability to work independently and as part of a cross-functional team.
- Excellent communication and collaboration skills.
- Preference will be given to those who have been actively involved in serving at APC, Bangalore.

As APC is a local church and Christian ministry, all positions require people who are passionate about Jesus Christ, and who are called, anointed, and committed to serving Him and people to see lives touched and transformed into Christlikeness.

GENERAL INFORMATION

ABOUT ALL PEOPLES CHURCH

All Peoples Church is a Jesus loving, Word focused, Spirit-filled, family church, an equipping center, a missions base, and a world outreach.

As a **family church**, we grow together as a community in Christ centered fellowship, caring and serving each other in love as the assembly of God.

As an **equipping center** we empower and equip every believer to live victoriously, mature into Christlikeness and fulfil God's purposes for their lives.

As a **missions base** we engage in meaningful ministry to bless our city, nation and the nations with the full Gospel of Jesus Christ through the Word of God and supernatural demonstrations of the power of the Holy Spirit.

As a **world outreach** we serve locally and globally by nurturing godly leaders and Spirit filled churches who can impact their regions for the Kingdom of God.

The vision of All Peoples Church is to be salt and light in the city of Bangalore and a voice to the nation of India and to the nations.
